PROFILE

Apprentice **IT specialist for system integration** (intermediate exam: **87/100**; registered for the early final exam in **winter 2026/27** — brought forward by 6 months, regular end of contract 08/2027) with a **completed first IT qualification as a state-certified computer scientist in multimedia** (application development for web & games). This combination brings together administration and an understanding of applications: I don't just run systems, I also understand the software on them. Focus areas: network infrastructure, IT security, system administration — deepened privately in a self-hosted homelab (Proxmox, OPNsense, zero trust), publicly documented on vugas.de.

WORK EXPERIENCE

09/2024 – present

Apprentice IT Specialist for System Integration

UFP Deutschland GmbH

- Active Directory administration and firewall configuration
- Direct user support in day-to-day operations

07/2023 – 12/2023

Fraud Analyst

TARGO Dienstleistungs GmbH

- Fraud prevention in banking — analysis of suspicious transactions
- Automation with VBA in Access databases, including adapting the database schemas
- Wrote my own PowerShell scripts and adapted existing ones
- Took on cross-team tasks on my own initiative, including beyond the job description

11/2022 – 04/2023

Soldier, Signaller

German Armed Forces (Bundeswehr)

- Basic training in Havelberg, followed by service training and specialist basic training as an armoured infantryman
- Focus on signals: setting up and operating radio systems near the front line to keep the connection between troops and command post

03/2022 – 10/2022

Production Assistant

Finke Formenbau GmbH & Finke Anwendungstechnik GmbH

06/2021 – 10/2021

Web Developer

Qwellcode GmbH

- Dynamic, responsive websites with HTML, CSS3, PHP and MySQL
- Customer support; employer reference with the top rating

EDUCATION

since 09/2026

Bachelor Professional in IT (IHK)

part-time evening programme (Tue + Thu, 5–10 pm) — no impact on working hours

09/2024 – exp. winter
2026/27

IT Specialist for System Integration Intermediate exam: 87/100

UFP Deutschland GmbH / Berufskolleg Uerdingen, Krefeld — registered for the early final exam in winter 2026/27, brought forward by 6 months (regularly until 08/2027)

10/2018 – 07/2021

State-certified Computer Scientist, Multimedia completed

b.i.b. International College — application developer for web & games (German Qualifications Framework level 4)

SKILLS

Infrastructure	Proxmox VE, Docker / Docker Compose, Linux (Debian), Windows Server, Active Directory
Networking & security	OPNsense, VLANs (802.1Q), zero-trust firewalling, IPsec VPN, DNS/DHCP, fail2ban, backup strategies (3-2-1, restic)
Development	PHP, C#, SQL, Bash, VBA (Access), PowerShell (training and work experience); reading and analysing Python & TypeScript
Tools & methods	Git/GitHub, CI/CD (webhook deploys), technical documentation, AI-assisted workflows (Ollama, Claude) — including review and verification of the results

HOMELAB & PROJECTS — [documented on vugas.de](#)

- **Zero-trust network:** OPNsense firewall, 6 VLANs, default deny, enforced DNS — audited via the API
- **Self-hosted services:** Vaultwarden, Paperless-ngx with a RAG chatbot, Jellyfin media stack (Docker on Proxmox)
- **3-2-1 backup:** restic + rclone-crypt off-site, automated monthly restore tests
- **MCP server for the Proxmox VE API:** 88 tools across 8 modules — specified by me, implemented with AI assistance and reviewed; public at [github.com/VugasDev/mcp-proxmox](#)

CERTIFICATES

- **KMK foreign language certificate English C1** — passed (oral 30/30, written 92/100)
- **Cisco CCNA** — in preparation

LANGUAGES

- **German** — native
- **English** — C1 (KMK-certified)
